CJS Customers

Cable Jointing Supplies have supplied these components to many of Australia's largest and most successful mining and commercial companies. At Cable Jointing Supplies we are very proud of our extensive list of loyal customers!

Products > Low Voltage > Cable-End Sealing Caps

Cable-End Sealing Caps. (EC)

Heat Shrinkable cable end caps seal and protect cable ends from moisture by shrinking on application of heat to provide a water proof seal.

Made of heavy walled cross-linked polyethylene, Cable Jointing Supplies' cable end caps are resistant to the action of weathering and protect the cable from being infiltrated by moisture. The interior of a cable end cap is coated with high quality heat activated adhesive.
