

Strippers

CABLE SHEATH STRIPPERS

Kabifix - Cable Stripper

Suitable for small diameter cables (eg. fibre optic).

Hard Insulation Stripper - 14mm - 40mm Dia

The BXQ-Z-40 has been specifically designed for hard insulation, in the range of 14mm to 40mm diameter. Maximum insulation stripping depth is 6mm for end stripping of a cable and 4mm for mid section stripping of a cable. The BXQ-Z-40 has depth adjustment on the blade, while diameter adjustment is simply done by opening the jaws to accommodate the cable, and locking in position once on the cable. The blade has been sharpened and heat treated for added strength and durability. Blades can be changed or sharpened when they get blunt.

- Length: 270mm
- Width: 80mm
- Weight: 1020g

BXQ-Z-40

Sheath Stripper - Heavy Duty - 1000V VDE

The KUS1000 heavy duty cable stripper has been designed to strip large (no limit) diameter cable e.g. ground cable and multi-sheathed. The shoe-type blade tip prevents the inner conductors from being damaged when stripping the different insulating layers. Fully insulated handle allows working on live lines up to 1000V.

- Length: 200mm
- Weight: 100g

KUS1000

Cable Knives - 1000V VDE Insulated

These knives are specifically designed for the cable joiner, for cutting and stripping of insulation etc. while preparing the cable. They have a 1000V VDE rating, to protect the user while stripping live conductor.

- Length: 180mm
- Weight: 66g

KUS800 Straight blade

KUS900 Curved blade

Precision Cable Stripping Knife

The blade is designed as a safety knife for cable stripping with the aim of not causing damage to conductors. This knife is designed for the cable joiner. It is used in the cable preparation process to cut and strip insulation. The knife is 1000 Volt insulated to protect the user while stripping live conductors. The blade is fixed into the holder and the whole blade section is replaced.

Features:

- Milled blade
- Safety blade protection with hinged black blade guard
- Length: 185mm
- Thickness: 0.65mm
- Made of shock proof material

FSK - Universal Flat Blade

FSKB - Spare Blade - Blade Length 50mm
