

Electrical Screwdrivers - 1000V VDE

HVS5 RANGE

This range of screwdrivers feature fully insulated shafts.

- Designed and tested and compliant to VDE, GS and the EN/IEC60900 standard for full 1000V protection
- The test process for these screwdrivers is a 10,000V immersion test in a water bath as part of the manufacturing process. At this voltage there must be insignificant current leakage, or tracking
- The handles are made from two materials, which provides a soft grip, with a sturdy handle
- The blade is made from high grade alloy steel

The range can be purchased individually or in a set.

Individual Screwdrivers

The screwdrivers can be bought individually to top up the hang cell merchandiser. They have a hole in the handle so they can be hung on any merchandiser display.

Slotted (Flat Head) Range

Catalogue No.	Head Width (mm)	Shaft Length (mm)	Overall Length (mm)	Weight (g)
HVSS-75S	3.5	75	160	29
HVSS-100SB	4.0	100	205	61
HVSS-125S	5.5	125	230	82
HVSS-150S	6.5	150	265	118

Phillips Head Range

Catalogue No.	Head Size	Shaft Length (mm)	Overall Length (mm)	Weight (g)
HVSS-60P	#0	60	150	44
HVSS-80P	#1	80	185	67
HVSS-100P	#2	100	215	97
HVSS-150P	#3	150	275	174
