

"Platinum Series" Battery Powered 13 Tonne Hydraulic Crimper

- 100+ CRIMPS PER BATTERY CHARGE
- CRIMPS UP TO 300% FASTER THAN OTHER BRANDS*
- VISUAL CRIMP INDICATOR ENSURES CORRECT CRIMP EVERY TIME
- NO RETRACT PINCH POINTS

Rapid High Force Crimping 300% Faster*

355° Head Rotation

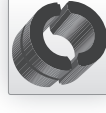

Visual Crimp Indicator - Audible Click & Visual Indicator

Technical Data

Output Force	14.6 Short Ton	13 tonnes
Tool Weight	15.8 lbs	7.2 kg complete with 3.0Ah battery
Jaw Opening	1.65"	42mm
Length	16.45"	425mm
Width	2.87"	73mm
Height	11.4"	290mm
Operating Voltage	18 V-DC	
Recharge Time	1 hour	
Battery	18V x 3.0Ah Li-Ion	

Accessories available:

Refer to pages H21-H23 for our range of die sets.

DIE SETS

Proudly Australian

The new MSS "Platinum Series" Battery Powered Hydraulic Crimper has been designed to quickly and easily crimp electrical connectors up to and including 400mm² CU. It has an industry exclusive automatic two speed pump design, delivering rapid advance, combined with unmatched high force crimping speed, up to 300% faster than other brands - Worldwide.

The sturdy steel trigger guard helps to protect the trigger from unintentional operation and field knocks. Each tool is supplied with a 220v charger, 2 x re-chargeable batteries and a Heavy Duty Steel carry case. The crimping dies are supplied separately.

- Industry exclusive mechanical "Visual Pop-Up Indicator", driven directly from the relief valve - assuring a correct crimp each & every time. * Patent Pending.
- Audible "Click" Indicator - assuring correct crimp pressure.
- Industry exclusive MSS design head & piston, completely removing all retract pinch points, for ultimate safety. * Patent Pending.
- Pressure biased release valve for easy piston retraction.
- Partial piston retract, speeding crimp cycle time, and saving battery life.
