Part Number	Description
AK 150/50	Aluminium skirting duct c/w cover & joiners
CM50oc	GPO or Data outlet mounting kit
CM50e	End Cap
CM50ec	External Corner
CM50ic	Internal Corner
CM50D	Divider (optional) for 3 channel division
VDCAT 6	Angled Data Face Plate

Benefits

- A large capacity skirting duct for high cabling volume installations or where provision is required to meet future needs.
- Accommodates RCD or Surge Protected outlets without the use of mounting blocks.
- Height of outlets above the floor allows for the use of transforming plug-tops.
- In stock + in Perth.
- Optional 3 channel divider for complete power and voice/data cable segregation.

Installation Features

- Corner and end cap fittings for easy installation with a professional finish.
- Outlet kits are the same for power and data/voice and use standard sized outlets.
- No cutting of the dividing barrier is necessary to fit outlets into the duct.
- Also available in a fully recessed version (see Catalogue No AK150/50FR) and with 3m long clip-fit aluminium lids (see Catalogue No AKS50).

Colours

- Choice of over 100 powdercoated colours*

* Conditions and charges apply
