# TECHNICAL DATA SHEET

AUGUST 2014

## PRODUCT NAME

8480 Cyanoacrylate Adhesive

## PACKAGING OPTIONS

| Part Number | Available Size |
|-------------|----------------|
| 8480-20     | 20g            |
| 8480-50     | 50g            |
| 8480-500    | 500g           |

Refer to MSDS for product safety guidelines

## 8480 Toughened Ethyl High Strength Black Cyanoacrylate Adhesive

Chemtools® 8480 is medium viscosity combined with fast cure speed, and excellent resistance to peel and shock loads. It is specially formulated to bond various Rubbers, Metals and Plastics for use in difficult environments.

### APPLICATIONS:

- Ideal for bonding Rubbers, Magnets, Metals and Plastics.
- Ideal for Speaker Assemblies, Automotive Parts, Electronic Components, Electrical Parts, Computer Assemblies, Disk Drives, etc.

### BONDING TIMES:

Under normal conditions, the surface moisture initiates the curing process. Functional strength develops in a short time but curing continues for at least 24 hours before full chemical/solvent resistance developed. The rate of cure will depend on substrate used.

|                 |                 |                    |                  |
|-----------------|-----------------|--------------------|------------------|
| Neoprene Rubber | 12 - 22 seconds | Nitrile Rubber     | 12 - 22 seconds  |
| SBR Rubber      | 15 - 25 seconds | Steel              | 60 - 100 seconds |
| Aluminium       | 10 - 25 seconds | Phenolic Materials | 10 - 50 seconds  |
| Polycarbonate   | 30 - 80 seconds |                    |                  |

### LIQUID PROPERTIES:

|                                 |                                      |
|---------------------------------|--------------------------------------|
| Composition                     | Rubber Toughened Ethyl Cyanoacrylate |
| Appearance                      | Black liquid                         |
| Viscosity @ 25°C Brookfield RTV | 300 cps                              |
| Flash Point (TCC)               | > 93°C                               |
| Specific Gravity @ 25°C         | 1.1                                  |

**CURED ADHESIVE PROPERTIES:**

|                           |                           |
|---------------------------|---------------------------|
| Gap Filling               | 0.3 mm                    |
| Tensile Shear Strength    | 13 - 28 N/mm <sup>2</sup> |
| Service Temperature Range | -60 to +80°C              |
| Full Cure                 | 24 hours                  |
| Melting Point Temperature | 160 - 170°C               |

**MECHANICAL PROPERTIES:****Shear Strength (ASTM D1002/DIN 53283)**

|                 |                        |
|-----------------|------------------------|
| Neoprene Rubber | > 12 N/mm <sup>2</sup> |
| Nitrile Rubber  | > 12 N/mm <sup>2</sup> |
| SBR Rubber      | > 10 N/mm <sup>2</sup> |
| PVC             | > 6 N/mm <sup>2</sup>  |
| Aluminium       | > 19 N/mm <sup>2</sup> |
| Steel           | > 28 N/mm <sup>2</sup> |
| Polycarbonate   | > 7 N/mm <sup>2</sup>  |
| ABS             | > 7 N/mm <sup>2</sup>  |

**PHYSICAL PROPERTIES:**

|                                                                                    |                       |
|------------------------------------------------------------------------------------|-----------------------|
| Coefficient of Thermal Conductivity, ASTM C177, W.m <sup>-1</sup> .K <sup>-1</sup> | 0.1                   |
| Coefficient of Thermal Expansion, ASTM D696, K <sup>-1</sup>                       | 80 x 10 <sup>-6</sup> |
| Glass Transition Temperature                                                       | 150°C                 |
| Dielectric Strength, ASTM D149, kV/mm                                              | 25                    |
| Dielectric Constant, 25°C, ASTM D150                                               | 2.75                  |

**CHEMICAL RESISTANCE PROPERTIES:**

| Chemical       | Temperature | % Initial Strength Retained |            |
|----------------|-------------|-----------------------------|------------|
|                |             | 500 hours                   | 1000 hours |
| Isopropanol    | 22°C        | 85                          | 85         |
| Petrol         | 22°C        | 80                          | 75         |
| Motor Oil      | 40°C        | 90                          | 90         |
| Mineral Spirit | 22°C        | 90                          | 90         |

**APPLICATION INSTRUCTIONS:**

- All surfaces must be clean, dry, dust and grease free. Best result will be achieved with surfaces that have been lightly abraded immediately prior to bonding.
- If using accelerator apply to one component surface only. Apply thin film of adhesive to the other surface and bring the pieces together immediately. Hold for few seconds without disturbing the joints.
- When bonding 'O' rings, cut a fresh surface onto each end of the rubber to gain the best possible strength.

**PRECAUTIONS:**

This product is capable of producing adverse health effects ranging from minor skin irritation to serious systemic effects. None of these materials should be used, stored, or transported until the handling precautions and recommendations as stated in the Material Safety Data Sheets (MSDS) for this and all other products being used are understood by all persons who will work with the material.

**WARRANTY:**

All products purchased from or supplied by Chemtools® are subject to terms and conditions set out in the contract. Chemtools® warrants only that its products meet the specifications designated as such herein, or in other publications. All other information supplied by Chemtools® is considered accurate, but is furnished upon the express condition. The customer shall make its own assessment to determine the products suitability for a particular purpose. Chemtools® makes no other warranty, either expressed or implied, including those regarding such other information, the data upon which the same is based, or the results to be obtained from the use thereof; that any product shall be merchantable or fit for any particular purpose; or that the use of such other information or products will not infringe any patent.
