Product Summary

CT-BKSG Galmax™ Silver Gal Black

Chemtools Silver Gal Black paint is a quick dry metallic paint. Active corrosion protection against weathering and moisture on steel and iron structures or equipment. Silver Gal Black can be used extensively in the maintenance and restoration of damaged or worn galvanized metal. Excellent adhesion to most metals. For use on both interior and exterior surfaces.

Features:

-Excellent weathering characteristics

-Corrosion protection against weathering and moisture

Applications: Interior/Exterior, radiators, roads and bridges, refineries, fences, siding, metal roofs, insulation, piping, storage tank exteriors, industrial mufflers, marine and offshore rigs, rust proofing welds/metal fabrication.
