### Product Summary

#### CT-DPI ChemTig™ Red Dye Penetrant

Chemtools Red Dye Penetrant is formulated to seep into any micro cracks present in a weld seam. Locates surface-breaking defects in all non-porous materials including plastics, ceramics and most metals. This product is also referred to Dye Penetrant Inspection (DPI) or Liquid Penetrant Inspection (LPI). Recommended for weld seam quality assurance. For use on pressure vessels and tanks, automotive parts, valves and pipes and lifting devices.
