Product Summary

Chemtools R31 DEOX Solid Film Lubricant Spray is a graphite based dry film which exhibits excellent anti-seize and lubrication properties. This specialist dry film lubricant produces a very slick barrier between metal surfaces that reduces sliding, friction, and corrosion.

Features & Benefits:

- Australian Made
- Long Lasting
- Great mould release properties
- Excellent lubricating properties
- Excellent anti-seize properties on threaded parts
- Safe on plastics and rubbers
- Ideal for high speed cutting tools, industrial machinery, engines, tools and equipment
