Product Summary

CT-SCF Straight Cutting Fluid

Chemtools Straight Cutting Fluid is a high performance, non-staining oil based solvent made from refined mineral oils. Chemtools Straight Cutting Fluid is formulated from solvent refined mineral oil and specialized, high performance extreme pressure (EP) additives. For overall performance Straight Cutting Fluid contains corrosion inhibitors and extreme pressure lubricants. It can be used on a range of metal types inclusive of yellow metals. It also contains polymer chemistry to minimize misting.

Features & Benefits

Has excellent extreme pressure / anti-wear properties, ensuring max life and provides an excellent surface finish
Excellent corrosion inhibition to maintain a rust free environment for machine tools & finished parts
Free flowing for rapid dissipation of heat from the removal/forming operation.

Product Description

CT-SCF-300 Straight Cutting Fluid 300g Aerosol

CT-SCF-500 Straight Cutting Fluid 500ml

CT-SCF-1L Straight Cutting Fluid 1L

CT-SCF-5L Straight Cutting Fluid 5L

CT-SCF-20L Straight Cutting Fluid 20L
