

Minivent Series – MV302E

Location

Project

Designation

Notes

Features

The Minivent Series of axial roof units has been specifically developed to meet the airflow requirements of small to medium sized rooms. Applications range from domestic to commercial.

Construction

Cowls are of UV-stabilised plastic.
Steel components have a corrosion-resistant finish.

Motors

Type - external rotor, squirrel cage induction motor.
Electricity supply - 220-240V, single-phase, 50/60Hz.
Bearings - sealed-for-life, ball.
Speed-controllable except MV112 and MV132.

Internal Thermal Protection

MV112 and MV132 are impedance protected
MV202 and above are fitted with auto-reset thermal contacts as standard.

Testing

Air flow tests to BS848:Part 1, 1980.
Noise tests to BS848:Part 2, 1985.

Note

Backdraft shutters can only be fitted to sizes 252/4 and 302/4 and butterfly shutters to size 354. When used, derate the fan performance by 15-20%.

Special Features

Can be mounted at angles up to 30°.
Supply air units can be supplied.

Technical Data - MV302E

Speed [rps]	Avg. dBA @ 3m	kWatts (Input)	Amps	Max.° C	Approx. Weight [kg]
41	55	0.18	0.79	70	6.9

Sound Data

Type	63	125	250	500	1K	2K	4K	8K
Inlet	67	74	74	75	70	67	64	

Minivent Series – MV302E

Suggested Specification

The roof ventilators shall be of the Minivent Series as designed and manufactured by Fantech Pty. Ltd.

The axial impellers shall be driven by speed-controllable external rotor motors with integral thermal protection.

The cowl shall be of UV-stabilised plastic with built-in terminal box.

All models shall be fully tested to BS848:Part 1, 1980 for air flow and BS848:Part 2, 1985 for noise.

Dimensions

A	B	C	D	E
350	410	55	350	570

All dimensions in mm, unless otherwise stated
