# Garland 1RU 19", Modular 24 Port Fibre Panel with Fixed Drawer

- 1RU 19" modular design
- Mounting Ears
- Includes 2 x 12f Splice Cassettes with Combs
- Includes Cable Glands, Internal Cable Management, Fibre Tubing & Splice Protectors
- Includes Adaptor Panels, with Screen Printed Numbers for SC/DLC, ST/FC & DSC/QLC
- Includes all Mounting Screws and Cage Nuts

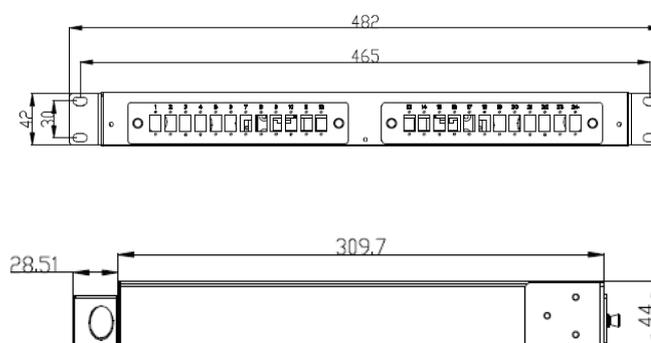

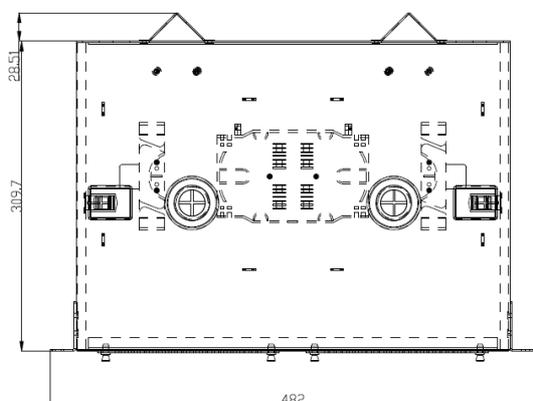

The Garland 24 Port 19" fixed rack mount FOBOT (Fibre Optic Breakout Terminal) provides an economical solution for installations where pre-termination, pigtail splicing, or field termination is required. The modular adaptor panels allow a choice between ST/FC, SC/DLC, DSC/QLC & blanks, with a full set of each included in each panel.

Cable entry is via the rear of the FOBOT drawer. Cable glands and strain relief posts retain the fibre. The 2 x 12f splice trays and splice combs manage and hold the splice protectors. Fibre managers maintain the correct bend radius and allow a smooth transition to the rear of the through adaptors.
