

Silhouette 6G LP electronic Switch Vert

WBSEV6

| Technical Properties          |                                                                   |
|-------------------------------|-------------------------------------------------------------------|
| Colour                        | white                                                             |
| Surface appearance            | glossy                                                            |
| Material                      | Polycarbonate (PC),<br>UV-stabilised                              |
| Operating voltage             | 230 ... 240 V AC                                                  |
| Operating temperature         | 5/40 °C                                                           |
| Storage/transport temperature | -20/60 °C                                                         |
| LED                           | with configurable<br>status LED<br>(orange/blue)                  |
| Type of connection            | with screw terminals                                              |
| Height                        | 117 mm                                                            |
| Width                         | 77 mm                                                             |
| Insertion depth               | 47 mm                                                             |
| Cable length, extensions      | max. 40 m                                                         |
| Extension unit input          | with extension unit<br>input for slave<br>push-button WBMESL      |
| Scope of delivery             | supplied with<br>standard tapered<br>point 32 mm fixing<br>screws |
