

## DUO *New*

### Trailing edge LED dimming switch

The DUO Dimming Switch is designed to ensure trouble free dimming with Haneco lights.

- Maximum load 350W (e.g. over thirty 10W downlights)
- Compatible with standard wall plates and apertures
- 2-way and 3-way compatible
- Integrated switch and dimmer knob
- On/off switch can be disabled
- Load correction capacitor included for loads under 10W
- Easy to locate in the dark with subtle backlighting that can be turned off
- Simple 2 wire design for easy installation
