10W RECHARGEABLE LED FLOODLIGHT, ORANGE

Codes:	Standard version:	RLED10WRCAU-CW
	Replaceable battery version:	RLED10WRCBAU-CW
Comparable to TH (W):		75
Comparable to MH (W):		20
Total power consumption (W):		10
Total light output L₁₀₀ (lm):		550
Lux @ 1m (lx):		250
Beam Angle (°):		110
CCT L₁₀₀ (k):		4,500
CRI L₁₀₀ (Ra):		75
Luminaire efficacy (lm/cctW):		55
LED life L₇₀ F₁₀ (hrs):		35,000
Operating temperature range (°C):		-20<Ta<+50
Recharge time (hrs):		5
Ingress protection (IP):		65
Fitting Guarantee (yrs):		2
Battery Guarantee (yrs):		1
Outer Box Qty:		12
Weight (Kg):		1.05

Suitable for use in domestic or non-domestic environments, this rechargeable LED floodlight is ideal to keep in the garage or store cupboard or carry in the van or car for those occasions when the electricity supply fails or is not yet connected.

It provides instant light to ensure safe visibility to move around the building and is also ideal for temporary lighting due to its cordless feature and directional adjustment.

Being IP 65 it can be used indoors or outdoors in damp, wet or dusty environments and due to its miserly power consumption, will provide light for 3 hours before requiring charging from the mains or car adapters which are both supplied.

FEATURES

BENEFITS

- | | |
|--|--|
| <ul style="list-style-type: none"> Runs off rechargeable battery | <ul style="list-style-type: none"> Mains electricity not required for operation Cordless with no trailing mains cables Portable so can be used almost anywhere |
| <ul style="list-style-type: none"> Replaceable battery version is complete with a spare battery | <ul style="list-style-type: none"> Exhausted battery can be replaced by a fully charged battery to provide 6 hours of battery supplied lighting |
| <ul style="list-style-type: none"> Complete with car and mains plug top adapters for charging | <ul style="list-style-type: none"> Can be kept fully charged in the vehicle or workshop ready for those unexpected electricity failures or site visits with no electricity Can be used while charging |
| <ul style="list-style-type: none"> Utilises a high quality, 10W Secondary Phosphor LED array with integrated LED driver | <ul style="list-style-type: none"> Excellent high brightness light output Low power consumption so <ul style="list-style-type: none"> Small batteries can be used Light weight and easy to carry Provides 3 hours of light (6 hours with spare battery version) No costly lamp replacements |
| <ul style="list-style-type: none"> Solid state technology | <ul style="list-style-type: none"> Rugged – is not affected by adverse temperatures No filament to break through vibration or knocks in use Long life of 35,000 hours |
| <ul style="list-style-type: none"> No Ultra Violet or Infra Red in the light beam | <ul style="list-style-type: none"> Not attracted by flying insects and bugs Cool to touch – no burning effect Will not fade or damage materials it is placed close to |
| <ul style="list-style-type: none"> Die-cast aluminium body High temperature 5mm toughened glass Integral soft grip handle Adjustable main body Detachable base with pre-drilled mounting bracket Rubber feet High quality orange powder coated finish | <ul style="list-style-type: none"> Light and strong, with good heat dissipation Less susceptible to damage/vandalism Easy and comfortable to carry and move around Provides light in required direction Flood can be securely screw mounted to wall or other surface Will stay in position even on sloping areas Durable, long lasting finish for extended life in hi-visibility colour |
