

# DOWNLIGHTS

## STUDIO LED DOWNLIGHT

### STUDIO LED downlight

- Suitable for use in offices, apartment stairs and corridors, care homes, student accommodation, retail shops, changing rooms, walkways and store rooms
- White polycarbonate body and polystyrene opal diffuser providing strength, low glare and long life
- Shallow body with wall or ceiling mounting
- High efficacy of 90lm/W
- Unique installation system comprising of universal mounting bracket with pre-punched fixing screw holes and notched and numbered width indents
- Prewired with 800mm 2 core flex and plug-top for fast and safe installation
- High lumen output comparable to 2 x 18W PL
- High quality DriverOnBoard constant current driver
- Can be mounted on the wall or ceiling

### UNIQUE INSTALLATION SYSTEM

- Allows the fitting to be surface mounted or recessed into existing ceiling downlight cut-outs of between 65mm and 205mm using the sliding springs
- Covers existing cut-outs so repairs are not necessary
- Provides a positive twist, click and lock action of the fitting to the bracket to ensure it is securely installed
