Due to continued product and technology enhancements, data sourced from sal.net.au shall not form part of any contract and or technical performance guarantee unless expressly confirmed in writing by SAL at the time of order. Products are sold in accordance with [SAL Terms and Conditions of sale](#) and all images shown are for illustration purposes only and may vary from the actual colour or finish. Unless specifically stated, all IP ratings nominated for Interior products are from "below the ceiling".

A purple speech bubble with a white question mark and the text 'DID YOU KNOW?' in white, bold, uppercase letters.

**DID
YOU
KNOW?**

What is the importance of EMC? Electromagnetic Compatibility, defines the use of different electronic devices (such as electric appliances, medical equipment, LEDs and drivers etc) to operate without interference with other devices. This is a mandatory label (and testing) requirement for Australian Lighting equipment covered by AS/NZS CISPR 15. ACMA also recognise equivalent standards CISPR 15 and EN 55015. If you are unsure, ask your supplier for EMC compliance.
