LED Light

Modern and sleek design with the ultra slim motor profile and aerodynamic blades, the Delta DC ceiling fan combines stylish good looks with amazing airflow and energy efficiency.

New 18W CCT LED Light model is now available - after popular demand we are excited to introduce the sleek and integrated 18W CCT LED light for our best-selling ceiling fan, so you can enjoy added illumination for your space.

Moves large volumes of air at a high velocity thanks to the high-performance DC motor coupled with aerodynamic polymer blades.

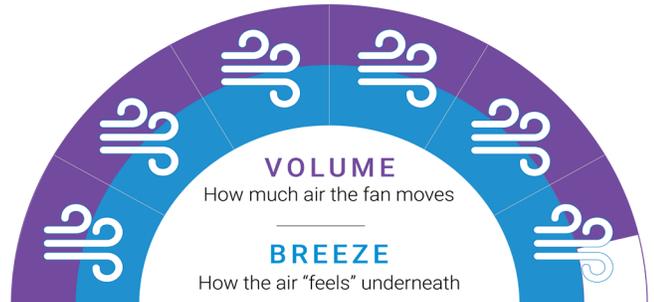

Highly efficient airflow made possible by the energy-efficient motor, using only 40W on high and as little as 6W on low so you stay cool for less.

Enjoy whisper-quiet cooling, thanks to the combination of a silent DC motor and premium polymer blades, so you stay cool with less wind and fan noise.

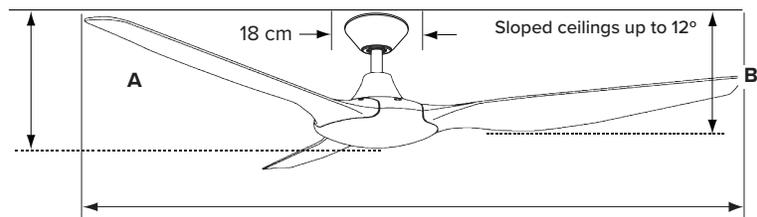

Perfect for both Indoor & Outdoors thanks to the all-weather polymer construction (a high-grade plastic), so you can maintain your decor style from your living room through to your alfresco outdoor area.
