4008085	LUK6063SS 20B/20C STNDARD CVR 665W 3M SS	600	665	3m

MATERIAL THICKNESS 0.7mm

STANDARD COVERS

These most common type used covers in stainless steel providing maximum protection to cables. The standard cover has a 3-5° crease for enhanced rigidity and to facilitate moisture run-off.

FINISH

The Grade 316 SS offers a smooth 2B finish.
